

# LowNoise solutions

*Silent performance. Superior experience.*

Overhead doors in industrial environments – from parking garages to high-speed doors – need to do their job, but as quietly as possible. FlexiForce LowNoise products noticeably reduce sound.

Smartly designed, quiet in operation, and built to perform.  
The LowNoise product line:

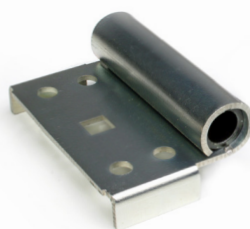

**2" Roller**

*Item no. 574B*

This reinforced 2" roller with a 6000ZZ heavy-duty bearing eliminates the familiar rattling sound of nylon rollers in tracks.

Also available in 3" (*item no. 579B*)

**Roller bracket**

*Item no. 450SZB*

No more squeaking or scraping noises – just the quiet movement of rollers within the hinges.

## Benefits:

- Significantly reduced noise
- High-quality look & feel
- Less play = less wear
- Easy to install
- Compatible with existing systems

## Center hinge

*Item no. 450HZB*

For center mounting.  
Thanks to a high-quality plastic bushing: minimal play and minimal noise.

## Side hinge

*Item no. 450RZB*

Equipped with a plastic bushing that minimizes metal-to-metal contact.

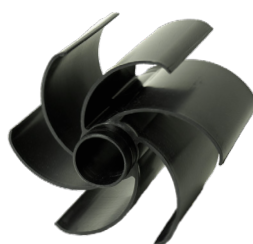

For 70 mm non-finger safe panels.

## Reinforcement bracket

*Item no. 450SHBL/ 450SHBR*

Reinforcement bracket for mounting on the left and right sides.  
Ideal as an alternative to double hinges.  
Combined with LowNoise side hinges, this provides a strong and quiet solution.

## Springfiller 6"

*Item no. 1078BW*

Eliminates spring resonance.

Note: Only applicable if the shaft is already in transport
